

西北地震学报

第三卷 总目录

第一期

- 矿井岩层受力状态与视电阻率关系的实验研究.....张同俊 (1)
- 某些短临异常的浅层机制.....王六桥、李善因 (25)
- 唐山7.8级强震前地震波特性的异常变化.....
.....冯德益、顾瑾平、盛国英、敖雪明、赵兵 (32)
- 地壳快速弹性破裂与强震.....李永善、韩恒悦、范亚民、李金政 (41)
- 从能量及地质条件探讨主-余震型地震序列活动的特征.....王振声 (54)
- 兰州市区地面脉动特征.....孙崇绍 (61)
- 地表地震反应的理论计算.....尹心方、钟孟邻、周炳荣 (72)
- 团块构造的理论实践和应用.....贾殿魁 (82)
- 1932年昌马7.5级地震形变带及其构造背景的初步分析.....周俊喜、张生源 (92)
- 华北地区的应力场及其与地震活动的关系.....李钦祖、靳雅敏、于新昌 (101)
- 区域地震台网合理布局问题的探讨.....刘多域、石特临、马业新 (112)

第二期

- 探索中的几类地震前兆的物理依据.....顾功叙 (1)
- 象力在震源过程和地震短临预报中的作用.....秦保燕 荣代潞 (6)
- 中国地区地震P波和S波走时表的实用检验.....阎志德 郭履灿 唐友梅 (13)
- 影响断层带再活动的一些因素的实验研究.....
.....马 谨 张渤海 袁淑荣 许秀琴 王宝生 刘天昌 吴秀泉 (18)
- 宁河地区的前震波形特征.....卫鹏飞 (25)
- 西海固地区构造应力场特征及其与地震活动性的关系.....
.....陈爱玲 赵淑兰 吕德徽 李素琴 (31)
- 地球自转产生的应力场.....范家参 黎家佑 (39)
- 张应力在地震过程中的作用.....龚鸿庆 (52)
- 976年8月松潘地震强震与脉动频谱特性的分析.....林学文 (58)
- 关中平原区的新华夏系构造.....王景明 (69)
- 丹江口水库区地震的形成条件与发展趋势的讨论.....李祖武 (78)
- 短 文
- 1973年马边地震前后波速比的空间分布和异常变化.....付征祥 (89)

略谈地电仪器的概况和发展趋向	陈才军 王燕成 曲正杰 赵家骝 (93)
唐山余震期间我校机井水位的异常变化	张 翊 (97)

研究报导

1906年新疆玛纳斯西南八级地震地表破坏现象与地质构造的关系	柏美祥 方志强 (100)
--------------------------------	-----------------

第 三 期

模糊数学在地震预报和震源孕育模式研究中的应用	
------------------------	--

	冯德益 林命周 顾瑾平 楼世博 (1)
临震电磁波信息研究	张德齐 殷春阳 王盛飞 郭一新 吴少武 (9)
唐山地震的重力异常	吴 兵 (15)
判断续发性强震的一种能量标志	王振声 (21)
青藏高原地区的P波走时与上地幔结构	贾素娟 曹学锋 鄢家全 (27)
唐山地震的某些前兆及上部地壳的向斜弯曲现象	赵玉林 钱复业 (35)
地电阻率年变化的一种物理解释	王志贤 (43)
海城地区震前低层大气增温的数值分析	韩元杰 (48)
强震区人工岩质路堑边坡的破坏及稳定性评价	许国昌 (68)
1937年青海托索湖7.5级地震形变带特征	李龙海 贾运鸿 (36)
固体潮观测数据的预处理	唐九安 (75)
WL ₃ 型稳流电源	高树心 高香珍 姜文德 (80)

短文

山东临沂地区波速比大幅度变化的原因	周焕鹏 芦守安 魏光兴 (87)
河西走廊历史地震活动的特征	申芳山 (92)

第 四 期

南北地震带北段中强地震综合预报问题的初步研究	
------------------------	--

	李海华 张文冕 吴德珍 姚庆春 (1)
唐山7.8级强震孕育过程的地震活动性特征	陈章立 薛峰 吕培苓 郑斯华 (9)
西藏高原地热活动、温泉分布与地球物理场特征	魏斯禹 滕吉文 杨秉平 胡忠义 (17)
变化磁场及其跨越式预报方法	丁鉴海 黄雪香 (26)
某些电化学分析方法在地震预报中的应用	王振亚 陶淑芬 (32)
初析天水地区南北向活动构造带及其与地震的关系	才树骅 滕端增 (37)
湖北麻城1932年6级地震的孕震构造模式	甘家思 (43)
宁夏地区的震源机制与应力场	李孟奎 赵知军 (49)
1978年海城6.0级地震的破裂过程和某些参数的估计	赵 振 (56)
地震社会学中涉及的某些医学问题	王家华 (62)

短文

关于1932年昌马地震破裂带	白启圣 (69)
与断裂活动有关的一种地电临震异常	毛 可 (73)
武都台地电阻率的短临异常与地震活动	王德志 (77)

对平凉柳湖泉点水氡年变化的初步讨论.....	刘廷慧 李克龙 王显瑶 (80)
西安铁炉庙地裂缝与地下水的动态变化.....	易学发 (83)
西影深井水位的变化特征.....	单修改 (86)

消息报导

第一次震源物理学习班在兰州举行.....	(88)
全国地震大形势学术讨论会在兰州召开.....	(88)
《模糊数学与地震》讲习班在兰州举办.....	(88)
西北协作区地震地质与测震学学术讨论会在兰州召开.....	(88)
日本、比利时学者来兰访问讲学.....	(88)

NORTHWESTERN SEISMOLOGICAL JOURNAL

Vol.3, 1981

PUBLISHED IN CHINA

CONTENTS

No.1

- Experimental Study on the Variations in Apparent Resistivity
Associated with the Stress State of the Rock-walls in the
Underground Mine Tunnels.....Zhang Tong-Jun (24)
- Some Anomalies of the Shallow Zone Mechanism During the Im-
pending Earthquake.....Wang Liu-qiao Li Shan-yin (31)
- Anomalous Variations of the Characteristics of Seismic Waves
Before the Tangshan (唐山) Strong Earthquake ($M=7.8$) ...
.....Feng De-yi et al. (39)
- The Processes of the Elastic Rupture in the Earth's Crust and Big
Earthquakes.....Li Yong-shan et al. (52)
- A Study of the Characteristics in Major—After Shock Type Based
on Energy and Geological Conditions.....Wang Zhen-sheng (60)
- The Characteristics of Ground Microtremors in Lanzhou.....
.....Sun Chong-shao (71)
- Theoretical Computation of Ground Seismic Response.....
.....Yin Xin-fang et al. (81)
- Practice and Application of the Conglomerated Lumps Construc-
tion Theory Jia Dian-kui (91)
- Preliminary Analysis of the Earthquake Deformation Zones and
Structural Background in the 1932 Changma Earthquake
($M=7.5$) Zhou Jun-xi zhang Sheng-yuan (100)
- Stress Field and Its Relation to Seismicity in North China.....
.....Li Qin-zu et al. (111)
- A Study on the Reasonable Distribution of the Regional Seismolo-
gical Station Net.....Liu Duo-yu et al. (117)

NO.2

- Physical Bases of Various Earthquake precursors in Exploration...

.....	Gu Gong-xu (5)
Application of the Image Force to Earthquake-Source Process and to Short—Term and Immediate Prediction of Earthquake.....	
.....	Qin Bao—yan Rung Dai—lu (12)
The Practical Test of P and S Travel Time Tables from Earthqua- kes in the Chinese Region.....	Yan Zhi—de et al. (17)
Experimental Research on Some Factors Affecting the Reactivation of Faults.....	Ma Jin et al. (24)
Characteristics of Foreshock Waveforms in the Ninghe Region.....	
.....	Wei Peng-fei (30)
The Characteristics of Tectonic Stress Field and Its Relations to Seismicity in Xiji—Heiyuan—Guyuan Region.....	
.....	Chen Ai—ling et al. (38)
The Stress Field of the Earth Due to Its Rotation.....	
.....	Fan Ja-shen Li Ja-you (51)
The Role of the Stretching Stress in the Earthquake Process.....	
.....	Gong Hong-qing (57)
Analysis of the Characteristics of Spectra of the Strong Ground Motion and Microtremors—August 1976 Songpan Earthquake	Lin Xue—win (68)
The Neocathaysian Structural System of Guanzhong Plain.....	
.....	Wang Jing—ming (77)
A Discussion about the Forming Conditions and Developing Trend of the Earthquake in the Danjiangkou Reservoir Area.....	
.....	Li Zu-wu (87)
Research Reports in Brief	
Spatial Distribution and Anomalous Changes of Wave Velocity Ratio Before and After the Mabian Earthquake in 1973.....	
.....	Fu Zheng-xiang (92)
A Brief Account of the Present State and Developing Tendency of Apparatus for the Measurement of Earth—Resistivity.....	
.....	Chen Cai—jun et al. (96)
The Abnormal Changes of Water Level of the Motor-Pumped Deep Well in Our School During the Period of Tangshan Aftershocks	Zhang Yi (99)
Research Accounts and News	
Relationship Between Phenomena of Surface Breaking and Geological Structures of the Manas Southwestern Earthquake (M= 8) in 1906 in the Xinjiang Region.....	

.....Bai Mei—xiang Fang Zhi—qiang (102)

NO.3

Applications of Euzzy Mathematics to Earthquake Prediction and Investigation of the Preparatory Model of Earthquake Source

.....Feng De—yi et al. (8)

The Study of the Electromagnetic Waves Information During the Approaching of the Earthquakes

Zhang De—gi et al. (14)

Gravity Anomaly of Tangshan Earthquake.....Wu Bing (20)

An Energy Notation to Distinguish Successive Strong Earthquakes

..... Wang Zhen—shehg (26)

Travel Time of P—Wave and Upper Mantle Structure in the Qinghai

—Xizang Plateau Region.....Jia Su—juan et al. (34)

Earth—resistivity, Geomagnetic Anomalies and Ground Surface Subsidence and Synclinal Bending of the Upper Crust Prior to

the 1976 Tangshan Earthquake.....Zhao Yu—lin Qian Fu—ye (42)

A Physical Explanation of Annual Variation of Earth Resistivity

—*Observations at Daboshe Station of Earth Resistivity*

..... Wang Zhi—xian (47)

Numerical Analysis of Heat Increase in the Lower Atmosphere

Prior to the Haichen Earthquake (1975)Han Yuan—jie (60)

Characteristics of Deformation Band of the 1937 Tuosuohu Earth-

quake ($M_s=7.5$) in Qinghai.....Li Long—hai Jia Uen—hong (65)

The Failure and the Evaluation of the Stability of Artificial Rock

Slope of Cut in Macroseismic Area..... Xu Guo—chang (72)

The Pre—Processing Method of the Observation Data of Earth Tides

.....Tang Jiu—an (77)

Type WL₃ Current Stabilized D.C Power Supply

.....Gao Shu—xin et al. (84)

Research Reports

Causes of the Variations of Great Amplitude of Velocity Ratio of Seismic Waves in the Linyi District of Shandong Province

.....Zhou Huan—peng et al. (89)

Characteristics of Historical Earthquake Activites in Gansu.....

..... Shen Mao—shan (91)

NO.4

A Study on Synthetic Predicting Problem of the Intermediate Magnitude Earthquakes at the Northern Portion of the North—

South Earthquake Belt in China.....	Li Hai—hua et al. (8)
Characteristics of Seismicity Associated With Development of Tangshan Earthquake ($M_s=7.8$) Occurred on July 28, 1976	Chen Zhang—li et al. (16)
Characteristics of Geothermal Distribution and Geophysical Field of Xizang Plateau.....	Wei Si—yu et al. (25)
The Various Magnetic Field and Leaping—Over Prediction Method	Ding Jian—hai Huang Xue—xiang (31)
The Application of Some Electrochemical Analytic Methods to the Prediction of Earthquake	Wang Zhen—ya Tao Shu—fen (36)
Elementary Analysis About the Active South—North Tectonic Zone in Tianshui Region and the Relation Between the Zone and Earthquakes.....	Cai Shu—hua Teng Rui—zeng (42)
The Tectonic Pattern of Earthquake ($M_s=6.0$) of 1932 at the Huangtugang, Macheng, Hubei Province	Gan Jia—si (48)
Focal Mechanism and Stress Field of Ningxia Region.....	Li Meng—luan Zhao Zhi—jun (55)
Fracture Process of the Earthquake ($M_s=6.0$) in Haicheng, Liaoning Province on May 18, 1978 and Estimate of Some Source Parameter.....	Zhao Zhen (61)
On Some Medical Problems in Seismosociology	Wang Jia—hua (68)
Research Reports in Brief	
The Fracture Zone of Changma Earthquake in 1932.....	Bai Qi—sheng (72)
A Anomalous Pattern of Terrestrial Electricity Related to Fracture Activity Before a Earthquake	Mao ke (76)
The Short—Term and Immediate Anomalies of Earth Resistivity and the Seismic Activity in Wudu Station.....	Wang De—zhi (79)
The Primitive Discussion on Annual—Variation of the Radon in Spring Water in Commune Liuhu, Pingliang.....	Liu Ting—hui et al. (82)
The Ground Fissure in the Area of Tielumao, Xian and the Changes of Ground—water Level.....	Yi Xue—fa (85)
Characteristics of Changes of Water Level of the Deep Well in Xi-yeng	Shan Xiu—gai (87)
