

第6卷 1984

总 目 录

第 一 期

- 山丹地震三十年.....本刊编辑部 (1)
- 岩石应力腐蚀的实验研究及其与震源过程的关系.....荣代路 赵广堃 (4)
- 应力作用下层状砂岩电阻率的变化特征.....
.....吕广廷 赵广堃 谢原定 金 铭 蒋续媛 (11)
- 预滑与地震前兆——长周期波动.....韩元杰 (17)
- 彭县4.5级地震前后的某些测震学指标的变化.....张耀国 王宗廉 (25)
- 海原5.5级地震时的倾斜突变.....刘光远 (32)
- 大气降水对昆明周围地震活动的调制.....赵洪声 黄云宝 (38)
- 黑水5.4级地震前地倾斜的异常特征及有关问题的讨论.....廖传英 吕 锋 (43)
- 最优分割在地震分期中的应用.....洪时中 (49)
- 黄土地区爆破地震土氩效应.....杨崇义 (58)
- 甘肃天水地区1654年罗家堡 $7\frac{1}{2}$ 级地震构造背景的初步分析.....白启圣 王之佩 (65)
- 利用重力资料探讨宁夏地区地壳结构的基本形态及其与强震活动的关系.....陈素改 (72)
- 甘肃及其邻区中强震前地震波速异常.....顾瑾平 (77)
- 相变脱水——震源区水内部来源的一种可能的方式.....林长佑 (84)

短 文

- 周至小震群活动特征.....姜家兰 赵 明 (93)
- 兰州地磁场近年来长期变化的分析.....王仕明 赵志新 (95)
- 天水—礼县地区卫星影象解译与北东向线性构造.....邵谨敏 (97)

报 导

- 1932年昌马 $7\frac{1}{2}$ 级地震形变带东段水平错动断距.....李玉龙 (100)
- 青海省祁连县大疙瘩5.0级地震宏观考察.....向光中
吕德徽 李素琴 王多杰 董志平 高 博 林 彤 陈玉华 党光明 (103)

第 二 期

- 以运动地块为单元的区域地震活动研究.....苏 刚 (1)
- 地下水潮与抽水地震.....于品清 (10)

- 长江三峡地区地震的远距离独立烈度异常区……………荣建东 (20)
- 一种有苗头的临震前兆……………程 式 (28)
- 华北地区的晚期强余震特征……………吴开统 (35)
- 以新的七级半以上地震目录探讨地震间距的优势分布……………高建国 (44)
- 地磁Z分量日变幅度相关分析与唐山7.8级地震……………卢振业 (53)
- 苏浙皖地区地壳结构的初步研究……………姚 虹 (60)
- 卫星照片的线性破裂解译……………刘光厦 (69)
- DSL—1型流动地震仪的动态特性研究……………周克森 (80)
- 由调制模式讨论短临地震预报(英文)……………郭增建 秦保燕 (90)
- 地震波振幅异常的某些物理解释(英文)……………李清河 (101)

第三期

- 伴随我国一些大地震的电离层异常现象……………李海华 刘德富 宋笑亭 (1)
- 1982年4月海原5.5级地震前后地电阻率的特征……………赵和云 杨明芝 (12)
- 一种可能的短期前震……………何志桐 (21)
- 库尔勒5.8级地震前地震波特性的某些短期变化……………王桂岭 敖雪明 杨成荣 (27)
- 用地下流体震前瞬间流动机制解释大地震短临前兆的特征……………王六桥 李善因 (35)
- 地磁总强度资料在地震预报中的应用……………姚法章 (44)
- 云南景洪和越南莱州7.0级地震的预报……………石绍先 (49)
- 唐山大震前后震区构造应力场的光弹性模拟实验……………
……………郭世凤 陈葛天 李淑恭 鞠德祥 (55)
- 地电阻率法的台址条件(一)……………陈有发 丁 卉 (62)
- 初论拱拗构造及其与地震的关系——以鄂西江汉地区为例……………任镇寰 李安然 (68)
- 溧阳两次地震前震活动图象的共性特征……………孙寿成 胡连英 (77)
- 甘肃地区分层地壳结构……………王周元 (84)
- 湖北及邻区现代构造应力场初析……………李蓉川 韩晓光 (92)
- 唐山地震前的某些地震前兆……………郭增建 秦保燕 汪 进 (105)
- 中国地块的地震应力场……………艾南山 A.E. Scheidegger (121)

研 究 报 导

- 用能谱法测量射线进行地震测报的探讨……………韩友珍 郭善义 (122)
- 关于地震预报的综合概率模式……………蔡经球 (126)
- 应用气压、暴雨标定地下水位的应力格值及其意义……………龚鸿庆 (130)

第四期

- 山丹大震及其有关研究的回顾……………本刊编辑部 (1)
- 我国大陆中强地震前地电阻率异常的分析研究……………马熙康 薛顺章 于谋明 (4)

单轴压缩下砂岩的P波动力学特征的实验研究.....	吕广廷 汤泉 李刘玉 赵广望 胡存德 蒋续媛 (11)
绝对弹性形变的X射线测量与地震.....	安 欧 (20)
一种短临地震预报的综合方法.....	王增甲 陈化成 张忠辅 (31)
1982年甘孜6.0级地震前兆异常及有关问题的讨论.....	李有才 (37)
地壳中张力区对孕震断层的作用.....	荣代路 (43)
偶极法预报地震的实验研究.....	安福祿 (49)
震前地倾斜跃变异常.....	藏希明 刘金勇 杨俊峰 (57)
昌马断裂带古地震遗迹初考.....	于 珉 (62)
计算机在地震前兆观测中的应用.....	钟廷姣 (67)
PZ40数据处理器.....	赵家骝 (72)
PZD—1型和768数字测氦仪计数电路的分析和改进设计.....	郭善义 韩友珍 李辛是 (77)
连续自动测量地下水氦的一种方法.....	翟兴耀 徐伟南 (83)
大震重复性与减震作用.....	郭增建 秦保燕 (95)

短 文

1973年6月3日新疆精河6.0级地震前自然电位异常.....	毛 可 (67)
确定历史地震震级的方法讨论.....	朱书俊 (102)
1984年元月6日旦马5.5级地震前重力固体潮异常.....	郭大庆 田少柏 (107)

NORTHWESTERN SEISMOLOGICAL JOURNAL

Vol. 6 1984

CONTENTS

No 1

The 30th anniversary of the Shandan earthquake.....	(3)
Experimental study on stress corrosion in rock and the relation with earthquake source process.....	Rong Dailu and Zhao Guangkun (10)
The property of electric resistivity change of layer sandstone rock under stress.....	Lu Guangting et al. (16)
Study on pre-slip precursor of the earthquake—long period precursory seismic wave.....	Han Yuanjie (24)
The variations of some seismometry indications before and after	

- pengxian earthquake ($M_s=4.5$) in 1981
 Zhang Yaoguo and Wang Zhonglian (31)
- The tilt step in the Haiyuan earthquake ($M_s=5.5$)..... Liu Guangyuan (37)
- Modulation of the atmospheric rainfall on the earthquake activities
 around Kunming.....Zhao Hongsheng and Huang Yunbao (42)
- The ground tilt anomaly characteristics before the Heishui earthquake
 ($M_s=5.4$) and discussion of some problems concerned.....
Liao Chuanying and Lu Feng (48)
- The application of the "Fisher" method to dividing earthquake
 activity periods..... Hong Shizhong (57)
- Effects of explosion earthquake on soil radon in the Loess area.....
 Yang Chongyi (64)
- Elementary analysis of geotectonic background for the 1654 Lojiapo
 earthquake ($M_s=7\frac{1}{2}$) in the Tianshui area, Kansu Province.....
Bai Qisheng and Wang Zhipei (71)
- Basic form of crust structure of Ningxia area and relation between
 the form and activities of strong earthquakes..... Chen Sugai (76)
- Seismic velocity ratio anomalies before some strong and moderate
 earthquakes in province Gansu and its vicinity..... Gu Jinping (77)
- Phase transition dehydration—a possible way of interior source
 of the water in the focus region..... Lin Changyou (84)

No 2

- The Research of Regional Seismicity Using the Moving-Block as an
 Unit (the Orduoce Block and Its Seismicity)Su Gang (9)
- The Relation between Tide of Underground Water and Earthquake
 Caused by Pumping Water.....Yu Pingqing (19)
- A Remote Abnormal Seismic Intensity of the Earthquakes in the
 Sanxia Area.....Rong Jiandong (27)
- A Possible Earthquake Precursor..... Cheng Shi Xu Chongrog (34)
- Certain characteristics of Late Strong Aftershock of North China,
Wu Kaitong et al. (43)
- A Preliminary Study on Predominant Dispersion of Earthquake
 Distance of New Catalogue of Earthquakes ($M \geq 7\frac{1}{2}$)
Gao Jinguo (52)
- Correlativity Analysis on Daily Change Amplitude of Geomagnetic
 Z Component and Tangshan 7.8 Earthquake.....
Lu Zhenye and Sun Ruomei (59)

- A Preliminary Study on the Crustal Structure in Jiangsu, Zhejiang, Anhui Region.....*Yao Hong et al.* (68)
- The Interpretation of the Linear Fractures on the LANDSAT Photos.....*Liu Guangxia et al.* (79)
- A Study of the Dynamic Response of Model DSL—1 Portable Seismograph.....*Zhou Kesen* (89)
- Discussion on the Short-term and Impending Earthquake Prediction by the Modulation Model (in English).....*Kuo Zengjian and Qin Baoyan* (90)
- Some Physical Explanation on Anomalous Amplitude Variation of Seismic Waves (in English).....*Li Qinghe* (101)

Brief Reports

- Activity characteristics of the Zhouzhi small earthquake swarm.....*Jiang Jialan and Zhao Ming* (94)
- Analysis of the long-term change of Lanzhou Geomagnetic field in recent years.....*Wang Shiming and Zhao Zhixin* (96)
- Interpretation of landsat photographs and northeastern trending linear structure in Tianshui-Lixian of Gansu.....*Zou Jiuchang* (99)

Research Accounts and News

- Strike displacement of deformation belt of the Changma earthquake in 1932.....*Li Yulong* (102)
- Macroscopic field view to the Dageda $M_s=5.0$ earthquake on July 28, 1983 in the Qilian of Qinghai province.....*Xiang Guangzhong et al.* (105)

No 3

- Some Abnormal Phenomena of the Ionosphere Prior to Some Great Earthquakes in China.....*Li Haihua et al.* (11)
- Characteristics of Earth-resistivity before and after the Haiyuan Earthquake of Magnitude 5.5 on April 14, 1982.....*Zhao Heyun and Yang Minzhi* (20)
- One Possible Kind of Short-term Foreshocks.....*He Zhitong* (26)
- Certain Short-term Anomalous Variations of the Characteristics of Seismic Waves before the Kuerle Earthquake ($M=5.8$).....*Wang Guiling et al.* (34)

- Momentary flow Mechanism of Short-term Earthquake Precursor
 *Wang Liuqiao and Li Shanyin* (43)
- Application of the Total Geomagnetic Intensity Data in Earthquake
 Prediction.....*Yao Fazhang* (48)
- Prediction of the Jinghong Earthquakes in Yunnan Province, China
 and the Laizhou Earthquake (M=7.0) in the Viet Nam.....
*Shi Shaoxian* (54)
- A Photoelastic Experiment for Simulating Tectonic Stress Field in
 Seismic Region Before and After Tangshan Earthquake.....
*Guo Shifeng et al.* (61)
- Investigation of the conditions of underground medium associated
 with the observation of earth resistivity-first paper.....
*Chen Yoifa and Ding Hui* (67)
- The Dome-col Structure and its Relation to Earthquakes an Example
 from West Hupei and Wuhan.....*Ren Zhenhuan and Li Anran* (76)
- The Common Characteristics of Seismicity Pattern for the Two
 Earthquakes at Liyang.....*Sun Shoucheng and Hu Lianying* (83)
- Layered Crustal Structure in Gansu Region.....*Wang Zhouyuan* (91)
- Recent Tectonic Stress Field of the Hubei Province and its Vicinity
*Li Rongchana and Han Xiaoguang* (98)
- Some Seismical Precursors Before the 1976 Tangshan Earthquake.....
*Guo zengjian, Qin Baoyan and Wang Jin* (99)
- The Seismotectonic Stress Field in the Chinese Craton.....
*Ai Nanshan and A.E.Scheidegger* (106)
- Research Accounts and News**
- A Discussion on Earthquake Prediction by Measuring Rays in the
 Soil by the Energy Spectrometer
*Han Yauzhen and Guo Shanyi* (125)
- On Synthetic Probability Model for Earthquake Prediction.....
*Cai Jingqiu* (129)
- Calibration of the Sensitivity in the Watertable Stress conversion
 by the Atmosphere and the Torrential Rain and its Signifi-
 cance.....*Cong Hongqing* (134)

No 4

- The Shandan Earthquake (M=7 $\frac{1}{2}$, Feb.11, 1954) and the Retrospec-
 tion of Studies on the Earthquake.....
*The Editorial Department* (3)

- Analysis of the Anomalies in Geoelectrical Resistivity Before the Medium Earthquakes with magnitude of 5.1—6.9 in China
.....*Ma Xikang, Xue Shunzhang and Yu Mouming* (10)
- The Experimental Study on P Wave Kinetic Characteristics of Sandstone under Uniaxial Compression..... *Lu Guangting et al.* (19)
- Absolute Elastic Surface Deformation Measurement by X-Ray and Earthquakes..... *An ou* (30)
- Synthetic Method for Short—term and Imminent Term Prediction of Earthquakes.....*Wang Zengjia, Chen Huacheng and Zhang Zhong fu* (36)
- Discussion on the Premonitory Anomalies and Some Prebems of the Ganzi Earthquake (M=6.0, June, 1982).....*Li Youcai* (42)
- The Effect of Tension Region in the Crust on the Fault in Earthquake Sorce.....*Rong Dailu* (48)
- The Test Research of Appling Diploe Method in Earthquake Prediction.....*An Fulu* (56)
- A Preliminary Study of the Abnormal Sudden Changes of Ground Tilt Before Earthquakes.....*Zang Ximing et al.* (61)
- Preliminary Investigation on the Ancient Earthquake Traces in Changma Fault Zone..... *Yu Min* (66)
- Application of Computer to the Frontend Observation of Earthquake.....*Zhong Tingjiao* (71)
- Model PZ40 Data Processor.....*Zhao Jialiu* (76)
- Analysis and Improvements in Designing of the Counting Circuit Model JZD—1 and Model 786 Digital Instrument Measuring Radon in Ground Water..... *Guo Shanyi and Hang Youzhen* (82)
- A α —Method for Continuous and Automatic Measurement of Radon in Ground water.....*Zhai Xingyao and Xu Weinan* (88)
- Repetition of Strong Earthquake and Reduction of Seismic Risk.....*Guo Zengjian and Qin Baoyan* (89)

Brief Reports

- Anomaly of Self Potential before the Jinghe Earthquake (M=6.0, June 3, 1973) in Xinjiang.....*Mao Ke* (101)
- Discussion of the Method on Detemining the Magnitude of Historical Earthquakes.....*Zhu Shujun* (107)
- Unnormal Tidal Curve of the Danma Earthquake (M_s=5.5 Janvary 6, 1984)..... *Guo Daqing and Tian Shaobai* (109)
